Hi All:

For agenda item (see agenda below): Revised draft "Guidance for TMDL Implementation Plan Development for Urban/Rural Residential Land Uses within the Coastal Zone Management Area" (Don & Gene):

The Final Draft: Guidance for TMDL Implementation Plan Development for Urban/Rural Residential Land Uses within the Coastal Nonpoint Management Area, Addressing the following program requirements: CZARA Section 6217 and Oregon TMDL Rule is available for your review and comment at: <ftp://deqftp2.deq.state.or.us/dyon/CNPCPTMDLIPGuidanceFinalDraftSBformatted06142012.docx>.

As you know, this document provides guidance for urban and rural residential Designated Management

Agencies (DMAs) within the Coastal Nonpoint Management Area) boundary and for Oregon Department of Environmental Quality (DEQ) agency staff on the development and implementation of Total Maximum Daily Load (TMDL) Implementation Plans. In addition, DEQ developed this Guidance to present to USEPA and NOAA the approach the State of Oregon will use to address the New Development Management Measure required under CZARA 6217. This approach is based upon current legal authorities and mechanisms to ensure that the New Development Management Measure will be adequately implemented in the Coastal Nonpoint Management Area.

In Section I and II, DEQ identifies the most effective and other recommended programmatic and structural BMPs to reduce the average annual total suspended solid (TSS) loadings by 80 percent and to maintain post development peak runoff rate and average volume at levels that are similar to pre-development levels hydrology volume reduction recommended for meeting CZARA 6217 New Development Management Measure. In Section 1.5.2.3 on page 16, Table 2 provides the BMPs Recommended to Meet CZARA 6217 New Development Management Measures.

Please send your comments to Don Yon, Oregon DEQ by Monday July 23, 2012 at yon.donald.r@deq.state.or.us.

Regards,

Jayne Carlin, Oregon CZARA/CNPPCP Coordinator

Subject: REMINDER: July 2 (10 AM West Coast, 1 PM East Coast): CZARA 2617 SA Commitments: Forestry & New Development (Prep for Qrtly Mgt Call) Call In Number Nonresponsive

Draft Agenda

July 2 (10-11:30 AM Seattle/OR or 1-2:30 PM DC) [Call In Number Nonresponsive or Dave Croxton's Office]

Updates, Announcements & Observations (All)

[This could include announcements such as EPA Attorney's Departure, observations/perceptions on NWEA & its views on SA progress, observations on stakeholder process for mid-coast TMDL development, NWEA's request for EPA/NOAA to revisit its conditional approval of the agriculture management measures in OR's CNPPCP, Request for assistance from NOAA's Fisheries Service on identifying the best available scientific information regarding habitat needs of coho salmon and best management practices to ensure protection of coho salmon habitat]

Revised draft "Guidance for TMDL Implementation Plan Development for Urban/Rural Residential Land Uses within the Coastal Zone Management Area" (Don & Gene) [Note: document will be sent separately]

- * Highlight changes, especially how DEQ addressed EPA/NOAA comments & areas in which to focus the review
- * Discuss next steps including outreach on document, strategy and schedule for updating existing TMDL Implementation Plans to incorporate new guidance and workshops for DMAs.

Recent Ruling on Oregon's Temperature Standard and its impact on the MidCoast TMDLs addressing the Forestry measures (Jenny)

How to Address Upcoming EPA/NOAA Commitment that by Dec 31, 2012, NOAA and EPA must prepare a written assessment to Oregon DEQ with copy to the plaintiff on 1) whether implementation of the Oregon Coastal TMDL Approach in the Mid-Coast Sub-

basins is likely to result in actions that will achieve and maintain WQS and 2) whether Oregon's plan for developing and updating TMDLs for all sub-basins in the CNPCP management area using the Oregon Coastal TMDL Approach could satisfy the outstanding forestry condition.

* Therefore by December 2012, NOAA and EPA will make their decision based on information received by mid-October. This may be challenging as the draft mid coast TMDL is scheduled for public notice in January 2013 with submittal to EPA by June 2013 (one year later than originally scheduled). What kind of information should be available by that date?

Focus/Topics for the July 11 Agenda & Messages to EPA/NOAA/DEQ Upper Management on Actions They Should Take or Do (All)

Actions Items

Settlement Agreement Schedule
